# Body organs worksheet ks1

Name \_\_\_\_\_ Date \_\_\_\_\_

## The Human Body

Directions: Label the body parts using words from the word bank. Answer the questions at the bottom of the page.

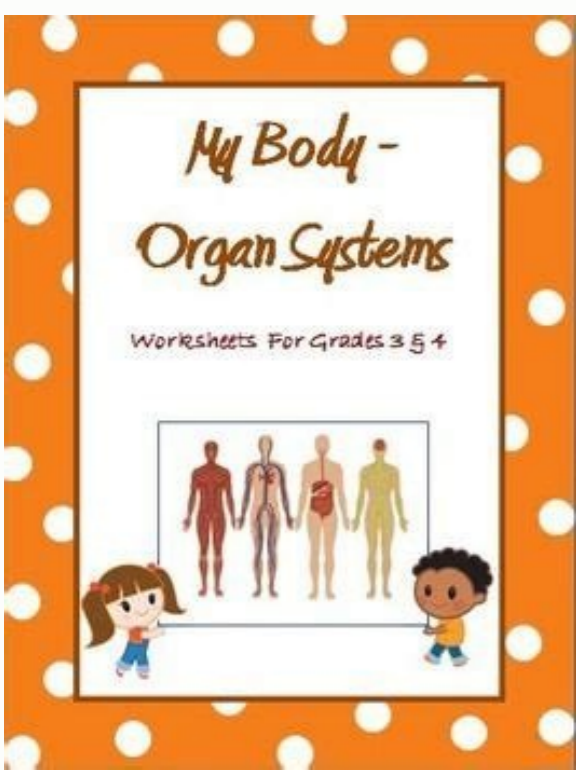

- brain
- lungs
- heart
- liver
- stomach
- small intestine
- large intestine
- spleen

Name at least 4 other body parts:

1. \_\_\_\_\_
2. \_\_\_\_\_
3. \_\_\_\_\_
4. \_\_\_\_\_

www.twinkl.co.uk

### Word Search: Digestive System

Name: \_\_\_\_\_

Find the following words in the chart:

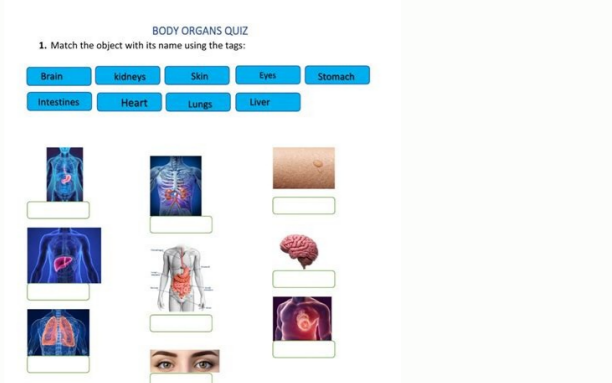

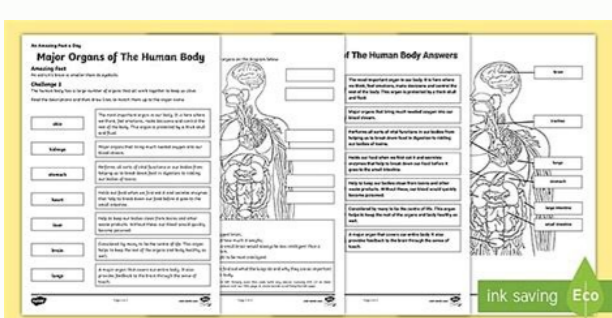

- Mouth
- Teeth
- Stomach
- Liver
- Small Intestine
- Large Intestine

g	o	r	h	l	i
d	t	l	e	y	n
o	a	m	p	d	o
o	v	e	l	n	o
l	y	e	n	a	c
b	a	n	e	n	n

Label the pictures using the words from the previous exercise and the following words:

- Mouth
- Teeth

- Stomach
- Liver

1. Hello! Humans have five senses: view, smell, audition, touch and flavor. These free parts of body games help students learn and practice the vocabulary of the body parts. When a student crossed all nine parts of the body, they shout 'bingo' and make the body parts. Students then pick up their own cards, shuffle them and play again. The bodied blood cleans as he flows around his body. Students then continue to play a snap game with the letters. Take someone to sell it and try to walk to the door. The student with more pairs of letters at the end of the game wins. You are not sitting a GCSE uses the example to help you begin. Imagine what it would be like not to have one of your senses. The two worksheets can be used together or separately. Puedes Find MAGNETS INFORMATION Y CAMIAR TUS Preferences aquin Report this Resource to Let us know if violating our terms and conditions. Good and simple to understand. Kids filter their blood. The heart pumps blood around his body, bringing oxygen to each part. Both students have a carton of their stack at the same time. The lungs are to breathe and bring oxygen to your blood. The first player completing his spreadsheet wins the game. This week we have 2 tasks: task 1 - label the image of the body - what will oiÁ E val where? A student takes the word letters and the other student leads the image cards. Make sure someone helps you so that you do not get hurt. If the body parts are correct, the student wins the round. If the word corresponds with the image, the student holds the two cards and has another turn. The student is the part of the body in the word card. When a player lands in a square word (e.g. arm), the student looks at his spreadsheet and riots the appropriate part of the body with that word. Everyone has a skeleton. And your brain, well, allows you to think and control your movements. several rounds with students students A different bingo card at a time. If the word card and match of the image card, the first student saying "Snap" marks a point. Call different parts of caller leaf body in a random order. Each lesson plan comes with each needed resource to teach the lesson. Is not it a lot of fun? For each correctly labeled item, students score a point. Or you can try watching the TV with the sound refused. Now you know where all the main agriculties of the body are, time to find out what they all do! Use the information spreadsheets, video links and websites to discover a little about each of the agriculture of the body and what is your main work (function). Write only one sentence or two to name the agricade and explain the work ... in pairs, the students take on shifts to deliver a card from a word and an image card. Slideshow: The image saving Sundays from teachers provides class plans and teaching resources for the current main currency. When students finish, they compare photos. In this fun body pieces game, students run against each other to land in word squares to be the first student to complete a marked worksheet indicating 20 parts of the body. Use the information and links below to find out what the internal body agricultures are, what they do and where they are. The human body is incredible. Well, let's find out doing one, most human bodies are composed of the same parts. This Web uses Nostros and Nuestros Public Public Boots Users and Othras Subsequent Technologies for Facilitate Una Mejor Navigación Experience, To Show Contentated Y Custom Announcements, To Analyze El TrÁJÁdfico del Sitio Web Y To Apropr . Some bodies need a bit of help to make them work the best of them. Home Learning - Summer Term Week 7 Science the human body - the "internal rgans where they and what do they do? Task 2 - What does each olagon do? First first To get ten points wins the game. Players take

shifts to roll the data and move the balcony along the plate in any direction. Here are two asshole of the body's vocabulary spreadsheets to help students learn the vocabulary of the body parts. It can come in all shapes and sizes. Our customer service team will review your report and get in touch. With the 'Label It' spreadsheet, students use words in a box for labeling body parts in a photo. In these parts of the body vocabulary game, students play bingo to practice vocabulary related to body parts. All your bones connected together. Use the other photos in this page to help you properly label which part of the image is which body management. Our scientific theme for the second half of the term of summer is 'human body - skeleton, agriculture, diet and nutrition', where we intend to find out what the human body is composed and as we maintain 'The healthy.' Culos, for example, can help you see better. Hearing AIDS Improve the audience. And wheelchairs help some people move. If the students have a corresponding photo in their bingo card, they turn away. Helps support your body and this also protects the olols that are inside you. Organs are parts of your body that really important jobs. We are all different and wonderful. We have complete planning and resources for the year of 1 to 6 for spelling, history and science, in addition to fans, mathematics, English, geography, French and Spanish for some groups of year. "One music on the body" is a dignified song that teaches over our bones, muscles and some cute olgies that fill Sam's body. The main rges and function clearly explained. These help you understand the world around you. In the 'Draw It' spreadsheet, students look at a monster description and attract in a frame. But, what is the compound? There are two bodies are exactly the same, but they are all parts of your body working together they make you, you. Please do not not Too much, only the main idea ... Each sense uses a different part of the body: Your eyes allow you to see; Your nose allows you to smell; His ears allow you to hear; Your skin allows you to touch; And your tongue allows you to prove. The student with more points wins. Students start by playing body pellet pieces. In the last update of July 20142 differentiated spreadsheets, in which the children receive a diagram of the human body and asked to label the body parts. tes Classic Free Licencicicelect General (no classification ) Your classification is needed to reflect your happiness. It's good to leave any feedback. Something went wrong, please try again. The final Userempty response does no sense for the End USEREMPTY Reply does not make sense for the final Userreport. This resourceta lets us know if you violate our terms and conditions. Poultry Find Mats InformaciÃn Y to commit from where Froviemen Nuastos visitors. Finally, review the description with the class drawing the monster in the frame. If a student says "fit" when the cards do not match, the other student punctuates a point and the game continues.
